nanomech 10

10th European Symposium on Nanomechanical Testing

September 01st to 03rd, 2009

in Hückelhoven / Germany

organized in collaboration with

nanotechnologie

CC "Ultradünne funktionale Schichten"

Program Committee

- Dr. Robert Cook / National Institute of Standards and Technology (NIST) / USA
- Prof. Susan Enders / University of Nebraska / USA
- Dr. Roland Schliesing / SURFACE / Germany
- Dr. Julia Deuschle / Max-Planck-Institute Stuttgart / Germany

The Symposium follows up the annual European Symposia on nano mechanical testing held in Hückelhoven from 2000 to 2008. It is addressed to the growing European community in this field, and is focused on the theory and practice of determining mechanical properties of materials with nanoindentation and other nano/micro scale testing techniques. The symposium will be held in English.

The special focus for Nanomech 10 is:

“Time, frequency and temperature: kinetic effects in mechanical measurements”

Important dates:

June 15th, 2009: Abstract submission deadline

June 30th, 2009: Notification of acceptance of presentations

June 15th, 2009: Early registration deadline

Publication: The symposium papers will be published together in the International Journal of Materials Research. The papers will be collected during the conference, reviewed and submitted to the Editor.
